Staff Contact: David Coronado, (915) 541-4632, coronadoda@elpasotexas.gov

Kimberly Forsyth, Lead Planner, gave a brief summary of the changes and a power point presentation. She noted that items 12, 13, and 14, are being presented together as they all relate to the departmental reorganization. The Planning and Economic Development Department and the Building Permits and Inspections Division are being combined into a new department which will be called the City Development Department. As a result, various titles including Title 19, 20, and 21 have various name changes of the department as well as the officials. The City Engineer, in some cases, is being changed to Planning Official and in some cases it will be changed to City Engineer or City Development Director or other designee of the City Manager. We will change the Planning & Economic Development Department to City Development Department and define Planning Division as Planning Division of the City Development Department. There are no substantive changes just the names. She clarified that the Engineering Department will still remain and Mr. Alan Shubert will remain as the director.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request. There was no response.

15. Planning Report:
Update on zoning cases that were recommended for denial by CPC but approved by City Council.

Philip Etiwe, Development Review Manager, asked the Commissioners if they would agree to staff providing them a quarterly report. Because of the posting requirement, the cases approved by the Commission will probably not go to City Council for months. Sometimes these cases are delayed at the request of the applicant. He noted that there has not been any City Council action on zoning cases since the last update.

No action was taken.

-
16. Legal Report:
Discussion on vesting

Lupe Cuellar, Assistant City Attorney, gave a brief presentation to the Commission and went over a recent 2011 vesting case that concerned a piece of property located in the ETJ. She noted that under Chapter 245 of the Local Government Code a project remains vested from the date the first permit or application for the project was submitted as long as it remains the same project and as long as it does not become dormant. When the project does not show progress for at least five years then it becomes dormant and loses its vesting. She noted that this is the most recent Texas case and discussed some of the facts of the case and answered questions from the Commission.

No action was taken.

ADJOURNMENT:

Motion made by Commissioner Wright, seconded by Commissioner Carreto, and unanimously carried to adjourn this meeting at 2:50 p.m.
